

KATHARI HIMA KISHORE

Aspiring Software Engineer

Chennai, Tamil Nadu | himakishorekathari@gmail.com | +91 8688339330

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Professional Summary

B.Tech Information Technology graduate (CGPA: 8.9) with hands-on experience building full-stack web applications using **React.js**, **Node.js**, **Python**, and **RESTful APIs**. Delivered 3 production-deployed projects — including a browser extension with **100+ global users** — and completed 2 internships with practical exposure to **Microsoft Azure**, **Docker**, **Firebase**, and **CI/CD** pipelines. Driven by a passion for building and shipping software — from designing scalable systems and writing clean code to delivering features and deploying production applications.

Education

B.Tech in Information Technology

Aug 2022 – Jun 2026

Hindustan Institute of Technology and Science

CGPA: 8.9

- **Relevant Coursework:** Software Engineering, Database Management Systems, Data Structures & Algorithms, Computer Networks, Operating Systems, Cloud Computing.

Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Spline

Backend & APIs: Node.js, Python, SQL

Cloud & DevOps: Microsoft Azure, GCP, AWS, Docker, Git/GitHub

Practices: Agile/SDLC, AI-Assisted Development, Automation, Code Review, Unit Testing

Projects

CodeForge: Real-Time Collaborative IDE

[Link](#)

- Built a browser-based collaborative IDE with a **Next.js**, **TypeScript** frontend and **Node.js** backend; used **Socket.io** for real-time bidirectional code sync across multiple users under 100ms latency.
- Integrated **Firebase** (Firestore) for session and file persistence; supported 8+ language local code execution and one-click **Docker** containerization for export or deployment to Render.

Tab Wrapper (Browser Extension)

[Link](#)

- Built a **Manifest V3** cross-browser extension that collects tab metadata and sends it to a **Python/Flask** Vercel backend, which calls the **Gemini API** to group tabs into intelligent color-coded categories.
- Shipped to **Chrome Web Store** and **Microsoft Edge Add-ons**, reaching **100+ global users**; supports dual modes — AI auto-categorization and manual slider-based grouping.

Event Management System

[Link](#)

- Built a full-stack event platform with **Python/Flask** backend and vanilla **JavaScript/HTML/CSS** frontend; integrated **Firebase Auth** and Firestore for real-time data and secure login.
- Implemented 3-tier **role-based access control** (User, Admin, Developer) with admin approval workflow and env-variable-protected Developer registration; deployed via **GitHub Actions** CI/CD.

Experience

Microsoft AI Azure Intern

May 2025 – Jun 2025

Edune Foundation (Microsoft Initiative via AICTE)

Remote

- Attended mentor-led sessions on **Microsoft Azure** fundamentals and demonstrations on integrating **Azure AI Foundry** services (Vision & Language) into full-stack projects.
- Built a capstone project with a **Python** backend and vanilla **HTML/CSS/JavaScript** frontend, integrating **Azure AI Foundry Vision Service** to analyse and identify user-provided image contents.

Python Development Intern

Jul 2023 – Aug 2023

SpaceZee Technologies

Remote

- Trained in **Python** fundamentals and web scraping; built a **BeautifulSoup** scraper aggregating data from 5+ online sources.
- Developed a **Python** backend with an **HTML/CSS/JavaScript** dashboard to display scraped results, reducing manual data lookup time by **40%**.
